**Dan Levin** (Ohio State University and Stanford University (visiting))

Organizers

Valeria Faralla, Alessandro Innocenti, Luigi Luini, Arturo Palomba, Patrizia Sbriglia

We invite you to submit a paper to the 2016 Labsi and Lab\_2 Workshop on Game Theory and Experimental Methods. The application of the experimental methodology to the study of strategic environments has always been a growing area of research in economics. The workshop is meant to provide a forum for the discussion of all application of experimental methods to the game theory, ranging from auction experiments to public good games and psychological game theory. We specifically welcome contributions from students and young researchers.

The deadline for submitting an abstract is **April 7th, 2016**. Abstracts should be submitted by email to **labsiconference@gmail.com**. Acceptance decisions will be communicated to authors by **April 14th, 2016**.

For any other information please consult the workshop website:
